CalRecycle Grant manager: Carla Repucci

Project Summary: In 2007, the Imperial County LEA initiated a substantial solid waste cleanup and abatement project in collaboration with the Department of Resources Recycling and Recovery to remediate 47 illegal disposal sites within the Imperial Valley to protect public health and the environment. Three of the illegal disposal sites submitted for cleanup grant funds within this grant application are remaining sites from the New River Collaborative Project. A fourth illegal disposal site has also been identified by the LEA that is located in an area of active agriculture near an irrigation drain adjacent to the City of Calipatria.

In an effort to assist these farmer property owners that have been victimized by illegal dumping, the LEA is submitting an application for the consideration of funding to clean up three existing solid waste illegal dump sites and to reimburse one property owner for the cleanup of a large illegal disposal site along the New River.

The illegal disposal sites deemed eligible for assistance under the Farm and Ranch Cleanup and Abatement Grant program are described herein as 1) Bowles & Lyerly Road Site, Calipatria, 2) Havens Road & New River Site (North), 3_ Mead Road & Alamo River Site and 4) Wienert Road & New River Site (Reimbursement Request).

Grantee Contact Phone Number: 530-365-7332

CalRecycle Grant manager: Carla Repucci

Project Summary: This project consists of approximately 3,500 truck and tractor tires abandoned in a gully in oak woodland rangeland. Access to the tire recycle vendors is about 0.5 miles away from the site, which will require the tires to be forwarded from the site to a staging area. This staging area is on another landowner, and will require his/her cooperation. The steepness of the gully is going to require seeding and mulching after the tires are removed to stabilize the tire area, the haul road, and the staging area.

CalRecycle Grant manager: Carla Repucci

Project Summary: SCRCD is seeking CalRecycle Farm and Ranch Cleanup and Abatement Grant Program FY 2010/11 funding to remove and dispose of illegally disposed waste and provide site security to include gates and fencing, incidental to the cleanup, on two sites in Sutter County. SCRCD will also place `NO DUMPING` signs on both sites. Illegally disposed waste impedes the landowners ability to successfully operate their orchards located on the sites. The removal of illegally disposed waste will eliminate potentially dangerous obstacles to basic farming operations, prevent further degradation of materials into toxic substances , and limit the possibility of onsite and offsite surface and groundwater contamination. The gates, fences, and `NO DUMPING` signs will help prevent future trespassing and illegal dumping at these sites.
